## PLACEMENT NOTICE

### Campus placement drive for B.TECH-ME/EE/EC BATCH-(2022 fresher & 2021 passed out)

#### 1. Name of Company: **E-Ashwa Automotive Pvt. Ltd.**

**About Company-** E-Ashwa Automotive electric scooter is the immediate answer for India's rising pollution problem. Our electric scooters are the finest solution in driving the movement of clean transportation to every individual in India. Knowing that demand for electric scooter will rise rapidly in the country, e-Ashwa Automotive electric scooter is proud to offer range of modular design options. All our models listed in the website are manufactured with world's best technology & process. e-Ashwa Automotive electric scooter has a sleek prefabricated design. The scooters are available in different colour ranges matching specific customer's interest.

We are one amongst the reputed **electric auto manufacturer in India**. Our in house manufacturing offer customers with distinctively designed models which are stylish in look and offer rigid performance. The Indian government has approved our e-vehicles and customers can safely ride them.

E-Ashwa Automotive model of e-auto is designed to ensure supreme safety and protection. Appropriate rear crash guard is placed to protect passenger from any form of impact on the road. The larger windscreen area guarantees great visibility and safety for rider. The hard top roof, delivers protection from both sun and rain. The model of the auto is planned in such a way to limit entry of dust and water.

The Company's mission is to dealing e-Rickshaws, e-Loader, e-Auto & e-Scooter of the highest quality offering latest technology, committed customer service & satisfaction. So, that each and every product that rolls out from the plant offers utmost safety, comfort & utility to the driver, as well as the passengers which in turn gets converted into "Value for Money".

## ALL PRODUCTS

E-Ashwa trying to deliver all Automobiles Vehicles or Products very soon.

With the current scenario of rising fuel cost and increasing air pollution, e-rickshaw is a great relief to general population and the environment. e-Ashwa Automotive is a premier **Electric -Rickshaw Manufacturers & Supplier in India**. We offer a wide range of e-Rickshaws which dominate the Indian roads. Manufactured in state of the art facility, the e-rickshaws offer reliable performance. Our contemporary design and use of right material make us the cost competitive option in market today. Unlike our competitors, we do regular testing of our products which delivers complete customer experience.

With our outstanding engineering and design capabilities, we are known as the **best e-rickshaw company In India**. While designing the passenger space we have ensured adequate leg room. This is an added advantage of our vehicle making customer journey comfortable. In fact the sitting capacity of our e-rickshaws is higher than that of conventional rickshaws.

We have marked our presence across customer group as the best e rickshaw supplier in India. We have happy customers across individuals, private company, railways and corporations.

Our e-rickshaw models are safe to passengers and are even economical. Further, since the vehicle does not require manual pushing, the e-rickshaw is disability friendly.

As a leading organization, we lay great emphasis on the quality and performance. We assure this by using modern technology, skilled engineers and numerous quality checks. Further, we purchase the raw material, electrical components and batteries from recognized vendors. Our devoted R&D Department works tirelessly in constantly upgrading our e-Rickshaws.

E-Rickshaw manufactured by us is economical to all people. The vehicle is energy efficient with low maintenance and running cost. Customers can blindly choose our e-rickshaw. We assure that it will be economically better than fuel vehicles
